## SAMUEL PAGE HOUSE

HABS  
ME  
8-WISC  
10-

Address: South side of Lee Street, 0.1 mile east of U.S.  
Route 1, Wiscasset, Lincoln County, Maine.

Present Owner  
and Occupant: Miss Eleanor Brace

Present Use: Residence.

Brief Statement  
of Significance: This is a simple brick house with an elaborate,  
wood porch.

PART I. HISTORICAL INFORMATION

## Physical History

A. Original and subsequent owners: Built for Samuel Page in 1837, purchased by Miss Eleanor Brace in 1950 from Mrs. A. J. Cunningham [Patterson, Old Wiscasset, revised by J. B. Doggett (Augusta, Maine: The Augusta Press, 1951)]. The house was built on land previously owned by Silas Lee.

B. Date of erection: 1837.

C. Notes on alterations and additions: The house was restored about 1940. The portico, carved by Edbury Hatch, a ship figure-head carver from Newcastle, was brought from that town c. 1946.

D. Sources of information: William Davis Patterson, Old Wiscasset, revised by J. B. Doggett (Augusta, Maine: The Augusta Press, 1951).

Fennie S. Chase, Wiscasset in Pownalborough (Wiscasset, Maine, 1941), p. 565.

PART II. ARCHITECTURAL INFORMATION

A. General Statement

1. Architectural character: This is a simple, brick house with an elaborately carved wood porch similar to cast iron porches.
2. Condition of fabric: Good.

B. Technical Description of Exterior

1. Over-all size: Medium-sized, rectangular, brick house, two stories high, five-bay front facing north.
2. Foundations: Brick.
3. Wall construction: Brick. Flemish bond on front, common bond on the sides.
4. Porches, stoops, bulkheads, etc.: Entrance porch, granite floor three steps high, one-story porch, low pitched gable roof, intricately carved vertical supports using vine motif, carved roof cresting with a bird perched on an urn at the center.
5. Chimneys: One brick chimney in each end wall.
6. Openings:
  - a. Doors and doorways: Four-panel entrance door, flat panels, simple frame with top light, louvered shutters cover door.
  - b. Windows and shutters: Double hung windows, nine over six light on first floor, six over six light on second floor, fixed louvered shutters. Masonry openings have flat brick arches.
7. Roof:
  - a. Shape, covering: Gable roof, asphalt shingles.
  - b. Cornice: Molded, wood cornice.

C. Site

1. General setting: Heavily wooded lot in a residential section, house set close to street at front; lot slopes down steeply to the rear.
2. Enclosures: Wood fence at front.
3. Walks, landscaping: Flagstone walks; informal, heavily wooded yard.

Data pages 1 through 2 were previously transmitted to the Library of Congress. This is data page 3.

INVENTORY OF PHOTOGRAMMETRIC IMAGES

The glass photogrammetric plates listed below are not reproducible except with special permission. However, reference prints and film copy negatives have been made from the plates indicated by an asterisk (\*) and are included in the Library of Congress collection of formal HABS/HAER photographs.

- 2      4" x 6" glass plate negatives (one stereopair) produced by James Replogle in 1960.

One survey control contact print per plate; survey control information for the pair.

LC-HABS-GS07-12R                      ENTRANCE, FRONT ELEVATION

Left and right overlap: 70%

PROJECT INFORMATION STATEMENT

Photogrammetric images were incorporated into the HABS/HAER collections in the summers of 1985 and 1986. Inventories of the images were compiled and filed as data pages for each structure recorded. Since the glass photogrammetric plates are not reproducible except with special permission, a reference print and film copy negative were made from one plate of each stereopair and from the most informative plates in sequential sets. The reference prints and copy negatives were then incorporated into the formal HABS/HAER photograph collections.

**SAMUEL PAGE HOUSE**  
**HABS No. ME-91**  
**Data (Page 4)**

The Photogrammetric Images Project was a cooperative endeavor between the HABS/HAER Division of the National Park Service and the Prints and Photographs Division of the Library of Congress. The reference prints and film copy negatives of the original plates were made by the Library of Congress Photoduplication Service with funds provided by the Library of Congress Flat Film Preservation Fund. Additional reproductions were made by HABS/HAER. The project was supervised by HABS/HAER Architect John A. Burns, AIA, and completed by HABS Historians Jeanne C. Lawrence (University of London) in 1985 and Caroline R. Alderson (Columbia University) in 1986.
